

Android Dev Kotlin

Submitting Apps to the Play Store

Basic Steps for Android Native TLDR:

1. Download Android NDK in SDK Manager
2. Download Android OpenCV SDK from the [OpenCV GitHub releases page](#)
3. Add module in Android Studio: File -> New -> Import Module...
4. Make sure to build the module.
5. Go to Project Structure -> Dependencies -> app -> + -> Module Dependency -> opencv
6. Build again
7. Start using the library
