PROJECT 3

Take your project 2 assignment and add all the polish and bug fixes that would be needed for a release including the following:

Requirements
1. **Dynamic app icon**
   1. Icon must be adaptive with legacy icons
2. **Play Store Icon**
   1. Include in the project folder (Marketing or _Marketing folder)
3. **Create a Staging Build Variant**
   1. Include a custom build config field in your variant and use in code
   2. Include a custom resource value in your variant and use in code
4. **Keystore files.** Include screenshots:
   1. **New Key Store**
   2. **Generate Signed Bundle**
   3. **Last screen with your custom staging build variant**
   4. **Signed App Bundle (.aab)** file in your project folder (Export or Deliverables folder)
5. **Assignment is free from bugs and ready for release**

If you choose to include these requirements as part of your final project, you do not need to submit a separate project for this spec.

Grading
Completing all requirements gives a base score of **80%**. To achieve a higher score, add additional content, features, design or extra detail.
